

SEMESTER STUDY PLAN							
	Study program: Master of Environmental Science			Faculty: Graduate School			
	Subject:	Environmental and Disaster Risk	Code: P-CIL-8-203		Credit:2 (4 ECTS)	Shem:2	
Supporting lecturer:	1. Prof. Drs. Sudharto Prawata Hadi, MES, Ph.D 2. Prof. Dr. Istadi, ST, MT 3. Prof. Dr. Tri Retnaningsih Soeprbowati, M.App.Sc						
Learning Outcomes Subject:	Students are able to understand disaster risks to the environment in various forms and their mitigation efforts.						
Short Description of Courses:	Disaster and environmental risk courses provide additional insight for students to be able to understand disaster risk, phenomena, forms, and mitigation efforts so that students can compile risk and disaster control documents effectively and efficiently.						
1	2	3	4	5	6	7	
Week	Final Ability of each learning stage	Study Materials/ Subjects	Learning methods	Time	Student Learning Experience	Evaluation	
						Criteria & Indicators	Weight (%)
1	Understand the content and contract of lectures for the next semester.	Introduction. Risk in various forms.	Lectures, discussions, and questions and answers.	216 minutes (0.25 ECTS) Consist of: • Lecture = 1x 120 minutes • Q&A = 1 x 20	Lectures, discussions, and questions and answers.	Student attendance and activity.	5

				<i>minutes</i> • <i>Discussion = 1 x 20 minutes</i> • <i>Presentation = 1 x 20 minutes</i> <i>Individual Tasks (Self Work) = 1 x 36 minutes/day (16 weeks)</i>			
2	Understand disaster risk and its impact on the environment and life.	Risk quantification. Risk of death. Chances and possibilities. Risk perception and adjustment to risk. Value of life. Pattern of natural disaster loss.	Lectures, discussions, and questions and answers.	216 minutes (0.25 ECTS) Consist of: • <i>Lecture = 1x 120 minutes</i> • <i>Q&A = 1 x 20 minutes</i> • <i>Discussion = 1 x 20 minutes</i> • <i>Presentation = 1 x 20 minutes</i> <i>Individual Tasks (Self Work) = 1 x 36 minutes/day (16 weeks)</i>	Lectures, discussions, and questions and answers.	Student attendance and activity.	5
3	Understand the tornado phenomenon, its causes, and appropriate mitigation measures.	Tornado phenomenology. Atmospheric stability. Tornado hazard mitigation.	Lectures, discussions, and questions and answers.	216 minutes (0.25 ECTS) Consist of: • <i>Lecture = 1x 120 minutes</i> • <i>Q&A = 1 x 20 minutes</i> • <i>Discussion = 1 x 20 minutes</i> • <i>Presentation = 1 x 20 minutes</i>	Lectures, discussions, and questions and answers.	Student attendance and activity.	5

				<i>Individual Tasks (Self Work) = 1 x 36 minutes/day (16 weeks)</i>			
4	Understand the hurricane phenomenon, its causes, and appropriate mitigation measures.	Phenomenology and effects of storms. Storm mechanics. Coriolis effect.	Lectures, discussions, and questions and answers.	216 minutes (0.25 ECTS) Consist of: • <i>Lecture = 1x 120 minutes</i> • <i>Q&A = 1 x 20 minutes</i> • <i>Discussion = 1 x 20 minutes</i> • <i>Presentation = 1 x 20 minutes</i> <i>Individual Tasks (Self Work) = 1 x 36 minutes/day (16 weeks)</i>	Lectures, discussions, and questions and answers.	Student attendance and activity.	5
5	Understand how to predict hurricanes, hurricane mitigation efforts, and the mechanism of the earth's plate motion.	Storm prediction and hazard mitigation. plate tectonics. Earthquake phenomenology.	Lectures, discussions, and questions and answers.	216 minutes (0.25 ECTS) Consist of: • <i>Lecture = 1x 120 minutes</i> • <i>Q&A = 1 x 20 minutes</i> • <i>Discussion = 1 x 20 minutes</i> • <i>Presentation = 1 x 20 minutes</i> <i>Individual Tasks (Self Work) = 1 x 36 minutes/day (16 weeks)</i>	Lectures, discussions, and questions and answers.	Student attendance and activity.	5

6	Understand the mechanism of earthquakes and mitigation efforts.	Earthquake mechanic. Earthquake effect. Earthquake hazard mitigation.	Lectures, discussions, and questions and answers.	216 minutes (0.25 ECTS) Consist of: • <i>Lecture = 1x 120 minutes</i> • <i>Q&A = 1 x 20 minutes</i> • <i>Discussion = 1 x 20 minutes</i> • <i>Presentation = 1 x 20 minutes</i> <i>Individual Tasks (Self Work) = 1 x 36 minutes/day (16 weeks)</i>	Lectures, discussions, and questions and answers.	Student attendance and activity.	5
7	Knowledge of earthquake and volcano mitigation planning.	Earthquake planning. Prediction and mitigation problems. Phenomenology of volcanoes. Volcanic danger.	Lectures, discussions, and questions and answers.	216 minutes (0.25 ECTS) Consist of: • <i>Lecture = 1x 120 minutes</i> • <i>Q&A = 1 x 20 minutes</i> • <i>Discussion = 1 x 20 minutes</i> • <i>Presentation = 1 x 20 minutes</i> <i>Individual Tasks (Self Work) = 1 x 36 minutes/day (16 weeks)</i>	Lectures, discussions, and questions and answers.	Student attendance and activity.	5
8	UTS	Meeting Material 1-7	Independent Written Test	216 minutes of processing time or the equivalent of 0.25 ECTS	Students working on UTS questions	Answer quality and timeliness	10

9	Understand how to predict volcanic eruptions and mitigation efforts.	Volcano prediction and hazard mitigation.	Lectures, discussions, and questions and answers.	216 minutes (0.25 ECTS) Consist of: • <i>Lecture = 1x 120 minutes</i> • <i>Q&A = 1 x 20 minutes</i> • <i>Discussion = 1 x 20 minutes</i> • <i>Presentation = 1 x 20 minutes</i> <i>Individual Tasks (Self Work) = 1 x 36 minutes/day (16 weeks)</i>	Lectures, discussions, and questions and answers.	Student attendance and activity.	5
10	Understand the risks and efforts to mitigate radon exposure.	Exposure risk. Dosage and response. Radon. Biological effects of radiation.	Lectures, discussions, and questions and answers.	216 minutes (0.25 ECTS) Consist of: • <i>Lecture = 1x 120 minutes</i> • <i>Q&A = 1 x 20 minutes</i> • <i>Discussion = 1 x 20 minutes</i> • <i>Presentation = 1 x 20 minutes</i> <i>Individual Tasks (Self Work) = 1 x 36 minutes/day (16 weeks)</i>	Lectures, discussions, and questions and answers.	Student attendance and activity.	5
11	Understand the risks and efforts to mitigate asbestos exposure.	Exposure risk and epidemiology of radon. Other radiation exposure. Asbestos and	Lectures, discussions, and questions and answers.	216 minutes (0.25 ECTS) Consist of: • <i>Lecture = 1x 120 minutes</i> • <i>Q&A = 1 x 20</i>	Lectures, discussions, and questions and answers.	Student attendance and activity.	5

		related health effects.		<i>minutes</i> • <i>Discussion = 1 x 20 minutes</i> • <i>Presentation = 1 x 20 minutes</i> <i>Individual Tasks (Self Work) = 1 x 36 minutes/day (16 weeks)</i>			
12	Understand the risks and efforts to mitigate arsenic exposure.	Risk of exposure and asbestos. Arsenic and other exposure hazards.	Lectures, discussions, and questions and answers.	216 minutes (0.25 ECTS) Consist of: • <i>Lecture = 1x 120 minutes</i> • <i>Q&A = 1 x 20 minutes</i> • <i>Discussion = 1 x 20 minutes</i> • <i>Presentation = 1 x 20 minutes</i> <i>Individual Tasks (Self Work) = 1 x 36 minutes/day (16 weeks)</i>	Lectures, discussions, and questions and answers.	Student attendance and activity.	5
13	Understand the watershed hydrological system and its role in disaster events.	Flood and watershed hydrology. River flows and river flooding.	Lectures, discussions, and questions and answers.	216 minutes (0.25 ECTS) Consist of: • <i>Lecture = 1x 120 minutes</i> • <i>Q&A = 1 x 20 minutes</i> • <i>Discussion = 1 x 20 minutes</i> • <i>Presentation = 1 x 20 minutes</i>	Lectures, discussions, and questions and answers.	Student attendance and activity.	5

				<i>Individual Tasks (Self Work) = 1 x 36 minutes/day (16 weeks)</i>			
14	Understand coastal processes and hazards and flood mitigation.	Coastal processes and hazards. Mitigation of flood hazards.	Lectures, discussions, and questions and answers.	216 minutes (0.25 ECTS) Consist of: • <i>Lecture = 1x 120 minutes</i> • <i>Q&A = 1 x 20 minutes</i> • <i>Discussion = 1 x 20 minutes</i> • <i>Presentation = 1 x 20 minutes</i> <i>Individual Tasks (Self Work) = 1 x 36 minutes/day (16 weeks)</i>	Lectures, discussions, and questions and answers.	Student attendance and activity.	5
15	Understanding the processes and risks of climate disasters in coastal areas and effective mitigation efforts.	Coastal erosion, global warming, sea level change, and coastal development. Conclusion.	Lectures, discussions, and questions and answers.	216 minutes (0.25 ECTS) Consist of: • <i>Lecture = 1x 120 minutes</i> • <i>Q&A = 1 x 20 minutes</i> • <i>Discussion = 1 x 20 minutes</i> • <i>Presentation = 1 x 20 minutes</i> <i>Individual Tasks (Self Work) = 1 x 36 minutes/day (16 weeks)</i>	Lectures, discussions, and questions and answers.	Student attendance and activity.	5

16	UAS	Meeting Materials 1-15 (resume material)	Written test	216 minutes of processing time or the equivalent of 0.25 ECTS	Students working on UAS questions	Quality of answers and timeliness of collection	20
